Iberia Rebuild (English)

Here you will find a tutorial on how to install the MOD, as well as a FAQ about it.

Information:

In order to install this MOD, you need to have all the Map DLCs as well as ProMods (https://promods.net) installed.

Then you need to download the MOD and place it in the MODs folder of Euro Truck Simulator 2, you will find it in the following path: (C:\Users\Username\Documents\Euro Truck Simulator 2\mod).

From there just activate the MOD with the highest priority in the game's MOD manager.

FAQ

Q: What is the Iberia Rebuild Project?

A: The Iberia Rebuild Project is a map mod for ETS2 that aims to improve the Iberian Peninsula, added by the Iberia DLC, by adding new roads, cities, and much more!

Q: Where can I download the Iberia Rebuild MOD?

A: You can download the Iberia Rebuild Mod on TruckyMods. This is the only official place where Iberia Rebuild is at. If you see it in another website, please let us know immediately!

Q: Is the Iberia Rebuild MOD compatible with map combos?

A: Possibly, yes. Since it requires ProMods to work, so there will be no problem if other MODs are placed without being ProMods.
